## Governmentt Affairs Update: VP Scott Croft:

Dear HRBYCA Board (and MHCYC friends):

Hope you are all well and looking forward to a great season-

Sharing with you the latest draft of the Hudson River Estuary 2026-2030 Action Agenda Draft as part of HRBYCA's Government Affairs work sitting on the Hudson River Estuary Management Program.

I've pulled the [relevant 3 pages](#) and highlighted items in **yellow** I thought of interest to all Hudson River community boat clubs, as well as 2 specific items (in **green**) that I have worked to insert into the agenda, even if they sound quixotic: transient access and dredging.

Please take a look to get a gist at where we're headed in terms of inclusivity, sea-level rise/resiliency, aquatic invasive species, access, disadvantaged communities and more.

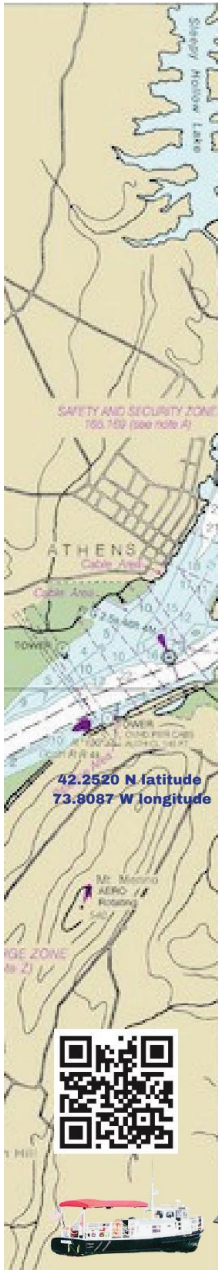

I hope this draft report gets your club asking some questions, even if answers are hard to come by. A big challenge is our clubs' inability to tap into the funding that can help us deal with these issues (funding goes to municipalities/govt., not community boat clubs).

Do not hesitate to reach out to me with any questions 914-336-6778.

## **Do you want to host a Boating Safety Course at your club?**

### **Consider the following:**

Greetings,

Captain Bob here, member of Newburgh Yacht Club.

In 2024, all persons born on or after 1 Jan 1978 must possess a NY Safe Boating card (or equivalent) in order to legally operate a powered vessel in New York waters. I teach the 8-hour in-person version of that course. If the Club provides the venue, I charge \$25.00 per student for the course. Class size must be a minimum of six (State rules). Max class size is 12 (experience has proven that more than 12 prevents attendees from getting the amount of attention they deserve.

I'd very much appreciate it if your organization would share this information with Yacht Clubs all along the Hudson River.

Very Respectfully,

Captain Bob Frederick
