### **Government Affairs: VP Scott Croft:**

- VP Scott Croft visited Irvington Boat Club and found they are thriving. They focus on paddling, entertainment, and camaraderie. They are planning to rebuild their dock that was damaged by a barge. They need a professional to sink pilings, and plan to do the rest themselves.
- The CHPE power line from Canada to NYC has begun construction in Lake Champlain and will continue south this season.
- Congressman Ryan sponsored a bill to ban new commercial anchorages on the Hudson. There is no language to allow recreational boat anchoring. The language should be included in the Senate bill that is now in committee.
- Zeita Merchant, a Black woman, is now the first Admiral in the USCG and Commander of USCG Sector New York.
- VP Croft went to the Hudson River Fishing Association (HRFA) meeting in NJ. They are monitoring wind farms and their impact on fishing in the coastal areas of NY and NJ. Interesting fact: NY state has a law that any wind farm cannot be visible from shore. The wind farms draw some species of fish and therefore recreational fishermen. They can impede commercial fishermen.
- Right whales are protected by law. There is a proposed law that will put a 10 KT speed limit on all coastal waters along much of the eastern seaboard. There is ongoing

research into electronics that will warn boaters of the presence of the whales with notice to slow down in that area.

## Hudson River Ice Yacht Club Trophy Found in New Zealand

A Loving Cup Trophy from 1904 was found in the North Haven Hospice Thrift Shop in Mangawhai, NZ, by a woman who had never heard of ice yachting nor the Hudson River Club. Debi Shwer of Auckland, NZ was visiting in Mangawhai, when she stopped into a thrift shop there. The Sterling Cup caught her eye, and she was determined to find out more... ### **Do you want to host a Boating Safety Course at your club? Consider the following:**

Greetings,

Captain Bob here, member of Newburgh Yacht Club.

In 2024, all persons born on or after 1 Jan 1978 must possess a NY Safe Boating card (or equivalent) in order to legally operate a powered vessel in New York waters. I teach the 8-hour in-person version of that course. If the Club provides the venue, I charge \$25.00 per student for the course. Class size must be a minimum of six (State rules). Max class size is 12 (experience has proven that more than 12 prevents attendees from getting the amount of attention they deserve).

I'd very much appreciate it if your organization would share this information with Yacht Clubs all along the Hudson River.

Very Respectfully,

Captain Bob Frederick
